

ChemFast

Accelerating Admixture for Concretes, Mortars and Grouts

Description:- ChemFast is a non-chloride hardening accelerator formulated to increase the early strength of concrete, mortars, bricks and grouts without affecting the initial workability of mix. Increase the property of shelf-compaction.

Characteristic Parameters

It conforms to specification prescribed in IS 9103:1999

Features/Advantages

- ❖ Early stripping and re-use of forms.
- ❖ Faster finishing operations on flatwork surfaces.
- ❖ Increases early strengths and allows faster repairs.
- ❖ It can be used with all type of cements.
- ❖ Non-Chloride.

Applications

- ❖ Structural Concrete.
- ❖ Concrete Block.
- ❖ Concrete Pipes.
- ❖ Precast Items.
- ❖ Bricks.

Packing: - 5, 20, 50 and 230 kg

Shelf-Life and Storage Condition: - Shelf life is 12 months from the date of manufacturing if stored properly in undamaged and unopened original sealed drum. Keep in dry and cool place & temperature should be +10°C to + 30°C.
