

ChemPlast CPB 200

Cement Saver for Concrete Blocks

Description:- ChemPlast CPB 200 is a brown or dark brown colour liquid which has been formulated for optimum performance as a cement saver under manufacturing conditions encountered in Concrete blocks. It is used to reduce material cost by reduction in cement without loss of strength or by increasing strength without additional cement. To get high early strength to improve upon productivity.

Characteristic Parameters

It conforms to specification prescribed in IS: 9103:1999

Features/Advantages

- ❖ Cement saving - strength, density and yield maintained with less cement.
- ❖ Increased strengths - higher strength without additional cement.
- ❖ Reduction in breakages - reduced breakages through increased green strength.
- ❖ Improved production - production cycle time can be reduced allowing more blocks to be produced in a given period.

Applications

- ❖ Masonry block units.
- ❖ Paver's blocks.
- ❖ Plain cement tiles, Cement roof tiles.
- ❖ Cement Terrazzo tiles.
- ❖ Concrete poles & pipes.

Packing: - 220, 230 kg

Shelf-Life and Storage Condition: - Shelf life is 12 months from the date of manufacturing if stored properly in undamaged and unopened original sealed drum. Keep in dry and cool place & temperature should be +10°C to + 30°C.
